## ADDITIONAL TELEGRAPH

At 8 o'clock A. M. the report of buildings blown up, indicating that gunpowder was being used to stop the fire, was heard at five minutes past 8 o'clock, and was the most welcome sound of the night, for it betokened a fearless, honest and radical effort to save Bostomerom Chica-go's fate. Four discharges were made in a block on Devonshire street, and these threw the buildings partially down, but without apparent benefit, for the flames jumped over the gap almost instantly. The building was close to the fire, and unless blocks more distant are speedily pros-trated the effect of the course will accom-plish nothing. The trains were laid in Federal street about 2 o'clock, and it was tely cleared for action.

A determined effort is being made to prevent the lurther progress of the flames northward. The Transcript building caught fire just before four o'clock, and the diames are bursting into the rear and spreading with such rapidity that all hopes of saving it were at once dis-

At four o'clock this morning the fire extended from Washington street on the west, to the wharves on the east, and from Milk street on the north, and to the Hartford & Erie railroad bridge on the south, the area of burnt district being roughly estimated at two hundred acres. The estimated at two hundred acres. The estimate of a well known real estate man is that the loss on buildings will average \$120 per foot for this area, which, therefore, will be a grand total loss in buildings alone of upwards of \$100,000,000.

So fierce is the march of the flames,

and so irresistable, that the merchants on Oliver street, when the first words were Oliver street, when the first words were given of danger, essayed to move their goods, but could not on account of the heat, and therefore they burned where they were. At an early hour in the evening the State Printing office was destroyed. 12 o'CLOCK M.

At this hour the progress of the fire southward has been checked, and also in southward has been caceed, and ago in a great measure towards the south east, the extreme limit of devastation in that direction being the Harford & Erie railroad, extending out the road and burning the bridge. Then it runs along Broad street to India, taking all the intermediate wharves and destroying a few vessels.
